TARGET ROLE

Data Analyst | Cyber Security Analyst

OBJECTIVE

MBA (IT) graduate with 2.5 years of corporate operations experience. Skilled in Data Analytics (SQL, Power BI) and Cybersecurity monitoring (Linux, Wireshark). Seeking an entry-level Data or Security Analyst role to apply my technical and operational skills.

PROJECTS

Data Analytics Portfolio & Dashboards

- Built a Call Center Dashboard using SQL and Power BI to track agent performance and SLAs.
- Conducted E-commerce Sales Analysis using SQL to model customer purchase data.
- Analyzed IT Employee Compensation datasets to extract company salary insights.

Network Traffic Analysis Lab

- Used Wireshark and Kali Linux to capture and monitor live network traffic.
- Analyzed system logs (journalctl) to detect unusual activity.
- Checked network data to find security vulnerabilities.

EXPERIENCE

We win limited

1 November 2022 - 10 July 2025

BPO CUSTOMER CARE EXECUTIVE

Managed high-volume customer queries and provided accurate operational support to maintain high service delivery.

Monitored core performance metrics including Service Level Agreements (SLA%), average handle time (AHT), and call quality standards.

Handled customer data verification and maintained database management securely within the company system.
